Booktalk!

Griffin Bing is the man with the plan. After the last caper in Cedarville with his friends Savannah, Ben, Logan, and Melissa to recover a million-dollar baseball card, Griffin knows he needs to find a way to recover Cleopatra, Savannah's pet monkey.

During a class trip to a floating zoo called All Aboard Animals, Savannah is sure she spots her beloved pet. In fact, she insists it is hers and makes a huge fuss to the sleazy owner of the zoo and his burly security guard.

Once they leave the zoo, the plan is hatched to get back there, scoop up Cleo, and go home. But there are a few obstacles to overcome. First, the barge is 10 miles away; second, they can't tell any adults; and finally, if they do manage to get there, how will they make it back with a monkey? Well, rescuing Cleo is the least of their problems. You will not want to miss one minute of this action-packed, hilarious companion story to the best-selling *Swindle*.
