

ALWAYS BELIEVING IN CHILDREN
YORKTOWN ELEMENTARY SCHOOL'S
COMMUNITY, PARENT AND STAFF ORGANIZATION

Yorktown Community Members, Parents, and Y.E.S. Staff,

Because it is through unity that goals are accomplished and because Yorktown's community, parents, and Y.E.S. staff all share the common goal of developing successful learners, Yorktown Elementary School invites you to become a member of the Parent/Y.E.S. Staff/Community Organization, Always Believing in Children, Yorktown Elementary School's ABC Organization.

Parents are important! The parent is the child's first and most influential teacher. No one can duplicate the nurtured learning, instill values or provide powerful modeling that takes place in the home.

Y.E.S. Staff is important! As trained professionals, teachers and instructional assistants provide formal and structured education. These instructors continually work to prepare the student for future learning and later life.

The community is important! Only business and community members can show students the real purpose of their education, what lies at the end of school years. By volunteering time and information and being genuinely interested in the community school, the business community plays an important part in the education process.

Please make plans to be a part of this successful direction. We are all in the business of educating our youth, always believing in children. Our promising children deserve all our efforts.

We will be notifying you of the upcoming dates of the meetings. Please plan to attend and participate in this worthwhile organization.

Always Believing in Children,
Yorktown Elementary School
