

Yorktown Elementary Physical Education Department
(Part of Everyday)

Our physical education program provides opportunities for students to learn a variety of activities and skills in the areas of development and instruction. Our lessons are designed to enhance children's physical fitness levels and provide opportunities for cooperative movement and skill development. Every child who is actively engaged in physical activity increases his or her chances for successful movement. If children are successful at physical activity the chances are those children, when they become adults, will live a physically active lifestyle. We believe that "Healthy Children Learn Better"! Stop by and visit our classes in the playatorium. Below is the P.E. schedule.

Tina Koehler
P.E. Teacher

Esther Corpus
P.E. Aide
